SAIGE DUHART

WEB DEVELOPMENT & MARKETING | CYBERSECURITY STUDENT

ABOUT ME

Detail-oriented web development and marketing professional with a strong foundation in applied technology, problem-solving, and cybersecurity. Experienced in drafting and building websites, working with digital tools, and improving user experiences. Comfortable explaining technical concepts, whether through marketing initiatives or teaching programming fundamentals. Currently studying cybersecurity, bringing an understanding of security principles to web and digital projects. Known for excelling in collaborative and independent environments, adapting quickly to new challenges, and delivering practical solutions.
